

# PRIVATE FAST-FILL STATION

## Beverage Distribution

### J. J. Taylor - Tampa / Ft. Myers, FL

#### Job Specifics:

TruStar Energy designed and constructed two large private fast-fill stations for a customer who moved product both to market - and to distribution centers in several large markets within Florida. The stations involved cascade storage and fast fill dispensers that would allow the operation to fuel 24/7. The Tampa location was also utilized by other local fleets on an 'as needed' basis. TruStar Energy owns both of these stations and provides regular maintenance.

#### Equipment Specifics:

Compressors: Two (2) ANGI 200 hp / 704 scfm (ea)  
Dryer: PSB Single Tower  
Storage: Three (3) 23' FIBA Tubes (90 gallons)  
Dispensers: One (1) ANGI Dual Hose Combo Dispenser  
Fuel Management System: FuelForce

#### TruStar Energy Personnel Involvement:

Jeff Lucero - Vice President of Construction  
Scott Edelbach - Vice President of Sales  
Anthony Flynn - Southeast Sales Director  
Maria Bolechowski - Director of Engineering  
Brandon Rapallo - On-Site Project Manager
